Analysis in Chemistry, Microbiology & Nutritionals for all Industries

MICROBIOLOGICAL ANALYSIS

Bacillus cereus	Mould
Clostridium	Pseudomonas
Coliforms	Rodak plate (incubation only)
Coli	Salmonella
Enterbacteriacease	Shigella
Lactobacillus	Staphylococcus
Listeria	Total bacterial count (plates-incubation only)
Total bacterial count (Swabs)	Total Bacterial Count (Swabs) Delivered
Total Plate Count	Yeast & Moulds
Preservative efficacy tests	Efficacy of antibacterial agents
Gram Stain	Identification
Presumptive Identification	Pyrogens (Toxins)
Sterility tests	Preservative efficacy test
Sterility Validation	Chlortetracycline
Doxycycline	Flavomycin
Flavophospholipol	Lincomycin
Neomycin Sulfate	Oxytetracyclin
Tylosin	Virginiamycin
Zinc Bacitracin 15%	

📍 9 Wiek Street, Bardene, Boksburg, 1459.
